Dear Sir:

This paper is being submitted in response to the Restriction Requirement mailed June 22, 2005. Without acquiescing to the statements made therein, Applicants hereby elect the claims of Group II (claims 1-2, 16, and 32-45) with traverse for prosecution in the instant application.

Applicants submit that it would not be unduly burdensome, in the least, to search Group I in addition to Group II. A search of methods of producing modified embryonic or stem-like cells is likely to uncover prior art concerning methods of producing unmodified embryonic or stem-like cells (Group I claims). Applicants respectfully request the Examiner to recombine and examine Group I and Group II claims.
